12-2-2019

Dear Sir,

I have received a letter stating the land behind my property to be considered as an amber site, and possibly taken out of Green Belt.

I would strongly object to this happening for obvious reasons. The land behind these houses at least on my section of this road 190. has the railway behind it, a narrow space with embankment leading up to station car park.

It certainly as I'm sure you're aware not got enough depth to build on!

To consider using it as access to anything else would involve an entrance leading to it.

I assume it would have to be accessed from Widney Lane or Widney Manor Rd. These roads are already extremely busy! To create an access from either of these roads would cause even more congestion than there already is!

It would be hazardous to both
Motorists and Pedestrians!
There is wildlife in this particular
area...which would be nice to conserve
in this becoming rapidly over developed
town.

Sincerely
