Re. S.M.B.C. Draft Local Plan. 9th MARCH 2019.

Are S.M.B.C. not aware that we have a National crisis regarding, WILDLIFE, BIRDS, BEES, and all insects, and here we are today planning to Build 1,000's of houses on precious green belt Land. Time we put a stop to these plans it's becoming a joke!!!

It would appear that S.M.B.C. will be very happy when our boundaries join up with Coventry City with no fields inbetween.

Regarding the infrastructure, there are no plans included in your draft Local Plan, apart from the byepass.
to that point we may protect our Country lanes and roads, from the burden of articulated Lorries, heavy & speeding traffic

from the village centre, and keep the lanes and roads free for local residents, pedestrians, cyclists, and invalid carriages.

Perhaps you may also inform us, as to where you plan to spend the 3½ million Pounds collected from the council tax or have they already been earmarked for Chelmsley Wood, or Birmingham

Let's put a stop to these stupid Dreyf plans and keep our green fields because they have gone they have gone for good. Now is the time to kick it all into touch.

Regards
