Site 21 Pheasant Oak Farm

I am writing to express my dismay at
your plans for the extensive erosion
of the green belt. This appears to
extend from the Pheasant Oak Farm site
all the way to Emerson Fields.

I assume that this means that you are
considering further housing which in
total will make Balsall Common
into a town.

The original intention of this part of the green belt was to provide an open space between Basall Bowman and Bovington and this is rapidly being eroded.

Also, I ask you to consider the effects on the atmosphere of all this 'concrete' on what is at present a green lung between us and Bovington.

I hope that you will be able to reconsider.

Yours faithfully

K. Wilkinson (Mrs)
