5 March 2019

Dear Nick,

Kixley Lane, Knowle

Please find enclosed correspondence from some of my constituents who are very concerned about proposals in the local plan to develop land at Kixley Lane in Knowle and remove the site from the green belt. As they point out, Kixley Lane is one of the last remaining old lanes in the village and they are seeking assurance that the openness of the green belt will be preserved. They are also concerned about the impact on local infrastructure and services with increased traffic and housing at this site. I would be grateful if you could take on board residents' concerns as part of the consultation process.

Yours sincerely,

Rt. Hon. Dame Caroline Spelman MP
