Dear Nick,

Re. Clopton Crescent/Newby Grove

Please find enclosed correspondence from my constituents who are very concerned about proposals in the local plan to develop land at Clopton Crescent/Newby Grove. As you will see from residents' comments, there has previously been a petition submitted to the local authority against development of the site and residents have also raised the issue of a covenant which they understood was in place on the site to protect it from development. Residents want to retain green space for local children and are also concerned about the impact on local infrastructure and services with increased traffic and housing at this site. I would be grateful if you could take on board residents' concerns as part of the consultation process.

Yours sincerely,

Rt. Hon. Dame Caroline Spelman MP
