Are Arden school /academy competent to manage a project like this when they sought millions for buildings that are to be demolished? (There must be some schools that would have made better use of these limited educational funds). If we are sacrificing never to be replaced green belt land then we should take care that the resources remain under as much democratic control as possible. It is a massive deal to change the shape of an area so much and considerations of long term accountability are important. Will the school and its sixth form be obliged to serve the walking distance and near community or will it want to select its pupils in 10/20/30 years' time in pursuit of "excellence" from further afield.

Will the public have any right to use these facilities or is this just going to be up to the school's goodwill or the highest bidders?

If the school buildings are part of a PFI deal the profit element for the provider may well exceed the environmental savings on ongoing running costs.

Will the new primary school be under local authority control and be neither part of an academy or a faith group. My preferred option is local authority control on the grounds of accountability and the broadest community base.

6. Please set out the modification(s) you consider necessary to make the Local Plan legally compliant and sound, in respect of any legal compliance or soundness matters you have identified at 5 above. (Please note that non-compliance with the duty to co-operate is incapable of modification at examination). You will need to say why each modification will make the Local Plan legally compliant or sound. It will be helpful if you are able to put forward your suggested revised wording of

any policy or text. Please be as precise as possible.

The taxpayer has invested in new buildings on the Arden site recently. Is it environmentally justified to demolish them or can catering and hall/theatre space be created by expanding the current Arden school site onto some of the land designated for housing. The money could even be spent on teacher salaries and professional development. COVID has also perhaps made this vision of 21<sup>st</sup> education already look dated.
