

NEWS FROM YOUR RESIDENTS ASSOCIATION

Solihull Local Plan – RESPONSE

The response, objecting to the use of the sites for residential development, which has been prepared by the Parish Council in conjunction with the Residents Association, can be viewed on our website (www.catney.co.uk). Volunteers delivered over 400 leaflets around the village outlining details of the 2 potential development sites and how residents they could respond to the Plan.

By reading our response and completing the form below you can express your wish to be associated with our response rather than submit one of your own.

To date we have received over 70 responses expressing their wish to be associated with the response - these together with any additional expressions of support received up until the 12th December will be forwarded to SMBC before the end of the consultation which ends on 14th December.

The Committee asks you to give your support to our response by reading it and completing the statement below then, scanning or taking a photograph and e- mailing this page back to [REDACTED]

If you do not have the facility to email then please contact the secretary on the number below before Friday 4 December and we can arrange for a printed version to be delivered or complete this page and we can collect from you.

I have read the full response submitted from Hampton Parish Council and the Catherine de Barnes Residents' Association objecting to the inclusion of Policy SO1 – East of Solihull, (under Solihull Town Centre & Mature Suburbs) being included in the Solihull Local Plan. I agree to all the objections raised and wish my name to be included in support to this response.
