There is no doubt in my mind, that Arden provides excellent teacher abilities to all students.
The staff are doing their part, going above and beyond, for the excellence that is Arden Academy.

That is why in my opinion; they deserve a building facility to match their incredible dedication, to help serve them as well in teachings.

The current building is failing them, by aging, high maintenance, poorly planned architecture, and lack of space for expansion.

With the new building, I cannot see any fault with the buildings designs.

I would like to see however, from an IT perspective, dedicated server room, which will help IT Teams to greatly reduce downtimes and avoid affecting the classrooms and students work.

Implement fibre optics to and around the building, which will greatly improve the school network.

Current copper wires are degrading, with little room for improvement.

Fibre optics will help future proof the network for expansion, functionality, supporting huge number of devices simultaneously.

Thank you.
